Chungil Chae Chae (2024) is an assistant professor in the field of business analytics, with a distinguished track record in organizational behavior, human resource development (HRD), learning, and development. With a prolific publication record that spans various dimensions of HRD and

organizational studies, Dr. Chae has made significant contributions to understanding the dynamics of organizational support on knowledge sharing, virtual team leadership, and the structural determinants of HRD research collaboration networks. And his work embodies a deep commitment to enhancing understanding and practices in organizational behavior, HRD, learning, and development. His interdisciplinary research not only contributes to academic discourse but also offers tangible strategies for organizational improvement and individual development.

Jiongcheng Lu (Tony) have a diverse background that combines both industry experience and research expertise. He have interned at banks, investment institutions, and technology research institutes, gaining a broad understanding of finance and innovation. Additionally, Lu founded his own tech company, which provided valuable entrepreneurial experience. Jiongcheng Lu's research focuses on health economics, financial accounting, and healthcare accessibility, with a strong emphasis on quantitative methods. He is particularly interested in applying econometrics and machine learning techniques to address complex challenges in finance.
